

Classic Grin

CLASSIC

EASY

Print at Actual size (100%)

Cut the eyes, nose and mouth. The teeth stay attached to the pumpkin.

To transfer: tape the page on, poke along the lines with a pushpin or toothpick, remove it, connect the dots.

Thin the inside wall to about 1 inch first.

YOU'LL NEED

Small serrated or paring knife + pushpin

Paint it instead: Black acrylic grin on a white pumpkin · Glow-in-the-dark paint on the eyes and mouth

cut (glows bright)

shave (soft glow)

2 inches. Measure this after printing; if it isn't 2", reprint at 100%.

Grown-ups do the cutting.

Tracing page (ink-light). Cut the paper along the outer line, tape it on, then trace the double outline.

To transfer: tape the page on, poke along the lines with a pushpin or toothpick, remove it, connect the dots.

The knife goes in the band between the lines.

Grown-ups do the cutting.

Solid double line = cut through. Dashed double line = shave only.

Before cutting, scrape the inside wall thin, to about 1 inch.

2 inches. Measure this after printing; if it isn't 2", reprint at 100%.
