

Rocket Ship

FOR BOYS

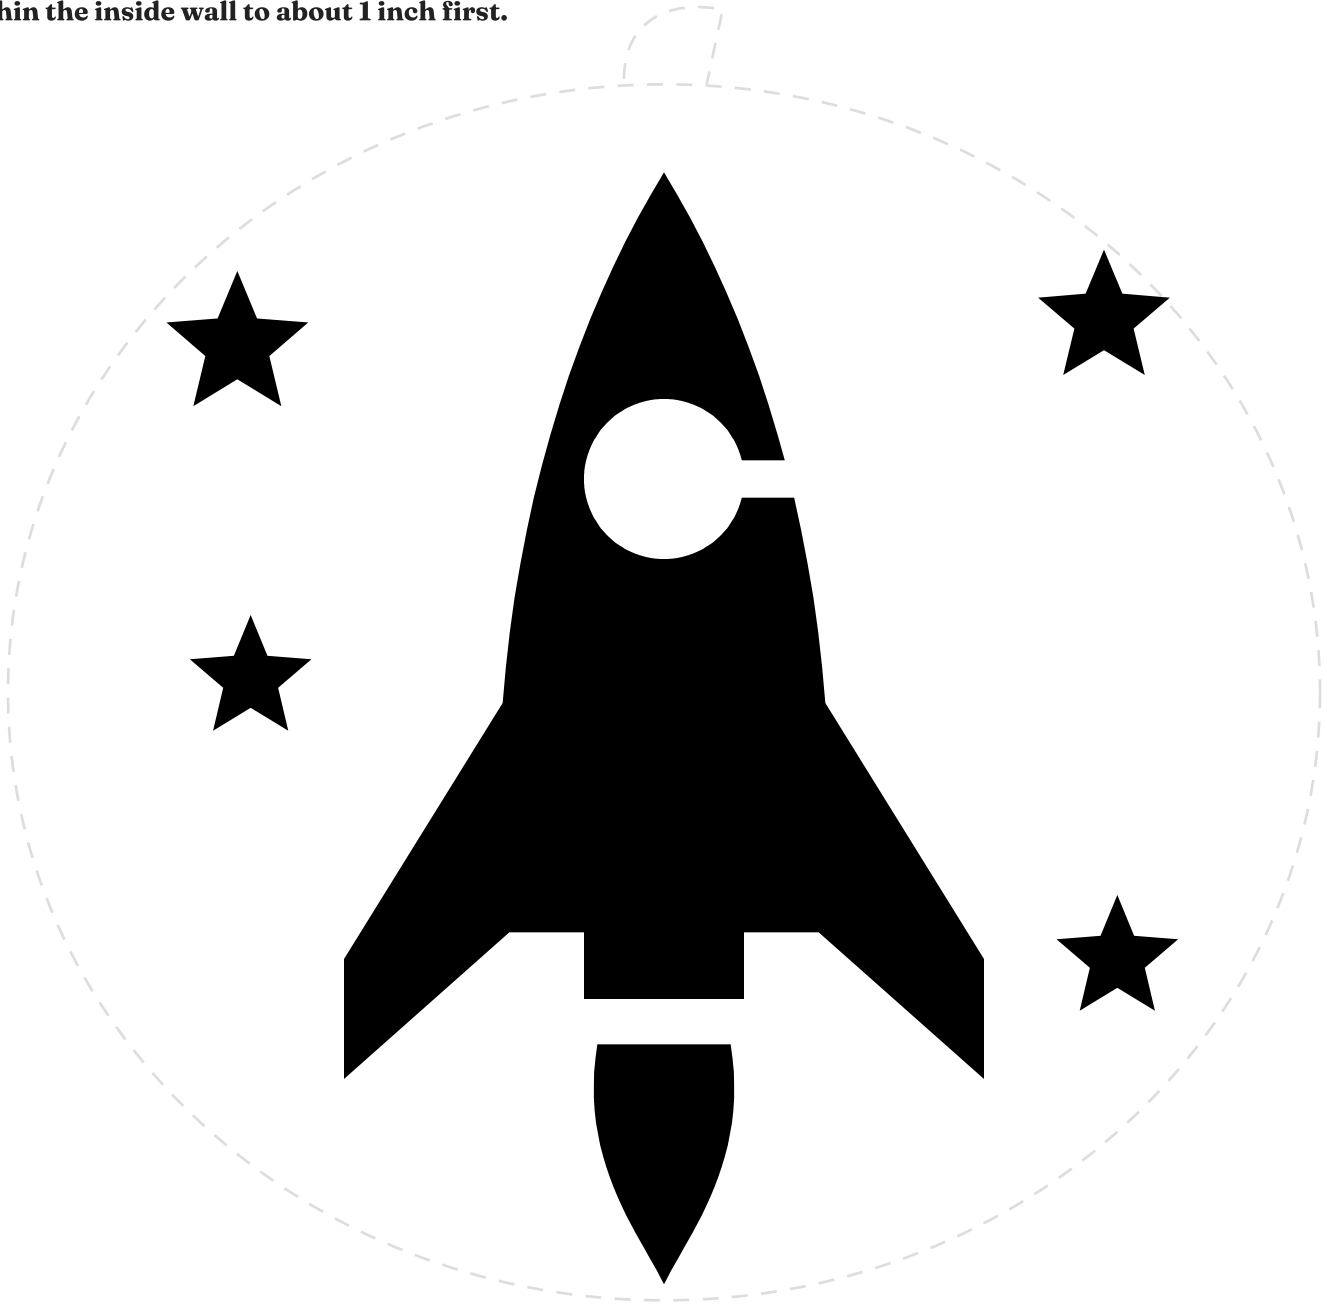

EASY

Print at Actual size (100%)

Cut the rocket, flame and stars. The round window stays, held by its strip.

To transfer: tape the page on, poke along the lines with a pushpin or toothpick, remove it, connect the dots.

Thin the inside wall to about 1 inch first.

YOU'LL NEED

Small serrated or paring knife + pushpin

Paint it instead: Silver rocket with an orange flame on a navy pumpkin

cut (glows bright)

shave (soft glow)

2 inches. Measure this after printing; if it isn't 2", reprint at 100%.

Rocket Ship

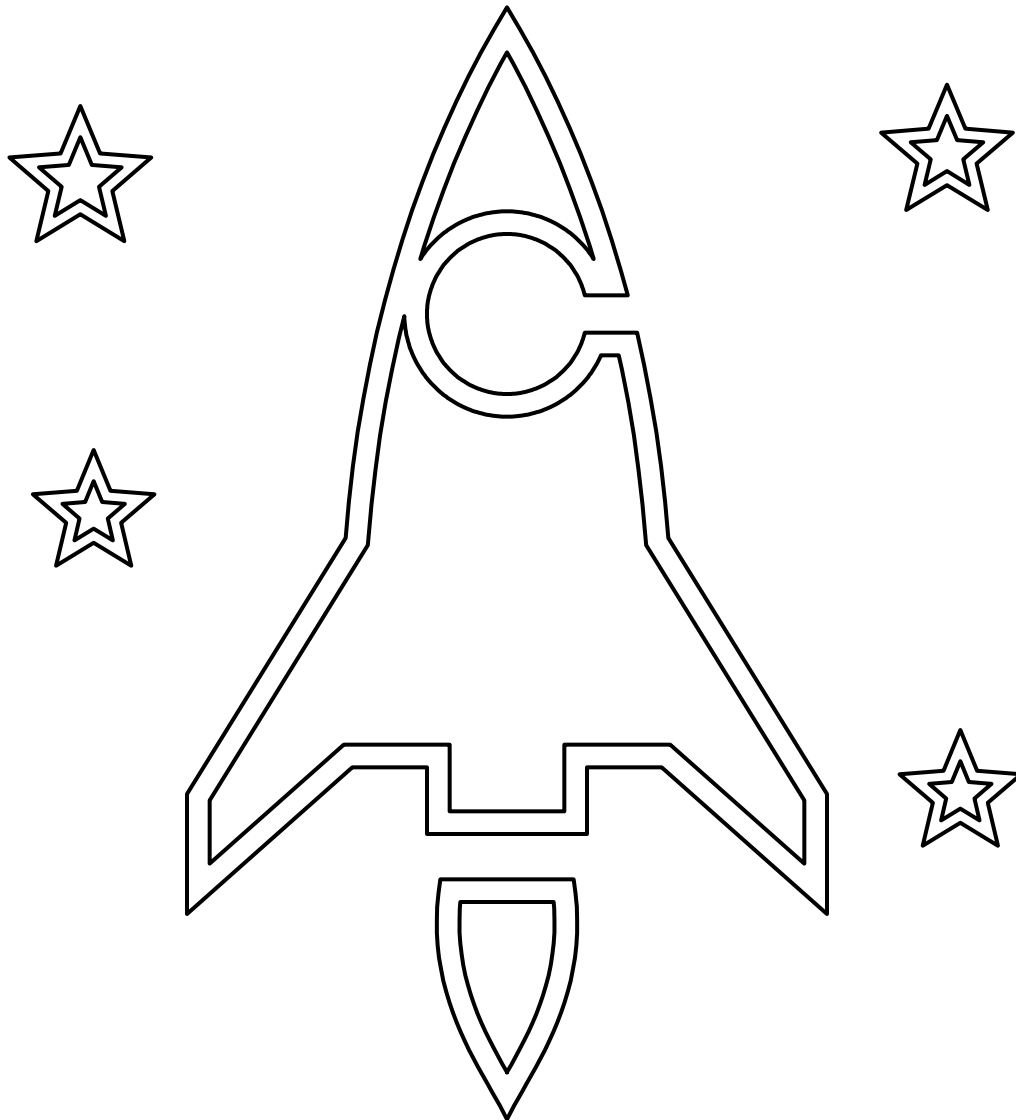

FOR BOYS

EASY

Print at Actual size (100%)

Tracing page (ink-light). Cut the paper along the outer line, tape it on, then trace the double outline.

To transfer: tape the page on, poke along the lines with a pushpin or toothpick, remove it, connect the dots.

The knife goes in the band between the lines.

Grown-ups do the cutting.

Solid double line = cut through. Dashed double line = shave only.

Before cutting, scrape the inside wall thin, to about 1 inch.

2 inches. Measure this after printing; if it isn't 2", reprint at 100%.
